## CONTENT

# COLLECTIONS

VisualPro provides an extensive selection of unique patterns and designs suitable for various printing applications. Our brochure serves as a valuable tool, enabling our design and production team to explore various options and customize them to fit your project needs.

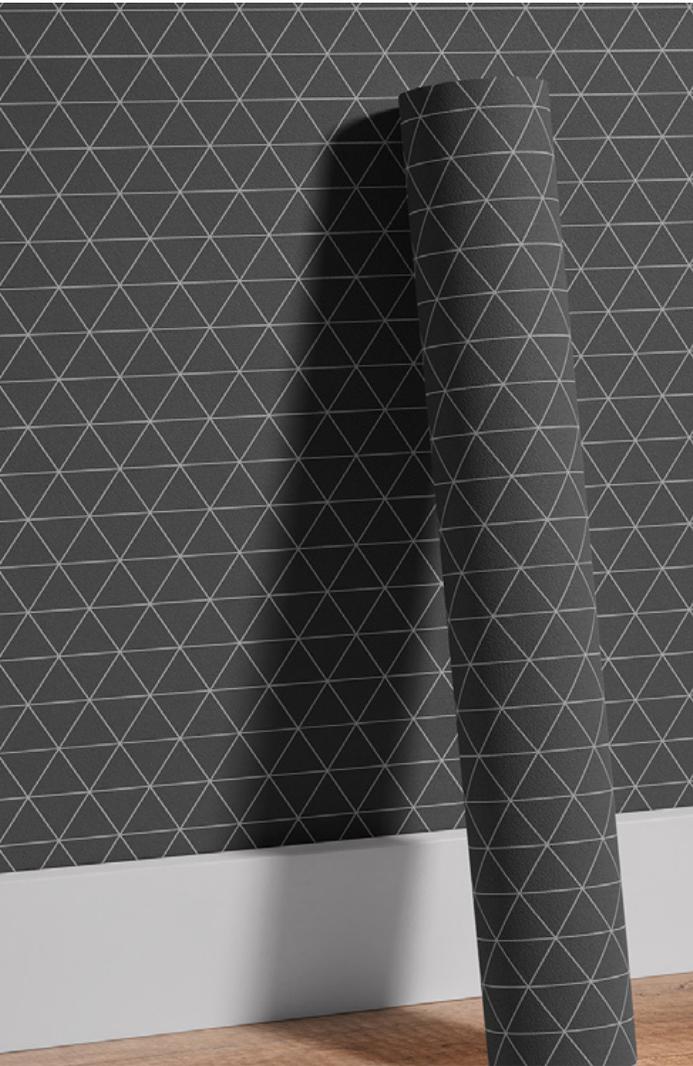

### DISCLAIMER:

The material contained herein is for review purposes only. The designs shown are digital representations and may differ from the final printed product. ClimatePro™ and VisualPro™ retains all title, ownership, and intellectual property rights to the material and designs contained herein. The designs shown may not be copied or distributed for commercial or personal use.

## STOCK DESIGNS

Our stock window film collections feature a variety of designs printed with white ink, offering varying levels of opacity depending on the pattern or design. Whether you need a subtle frosted effect or a more opaque design for privacy, our films provide both style and functionality. Each design can be customized to fit your project's specific needs.

## CUSTOMIZE

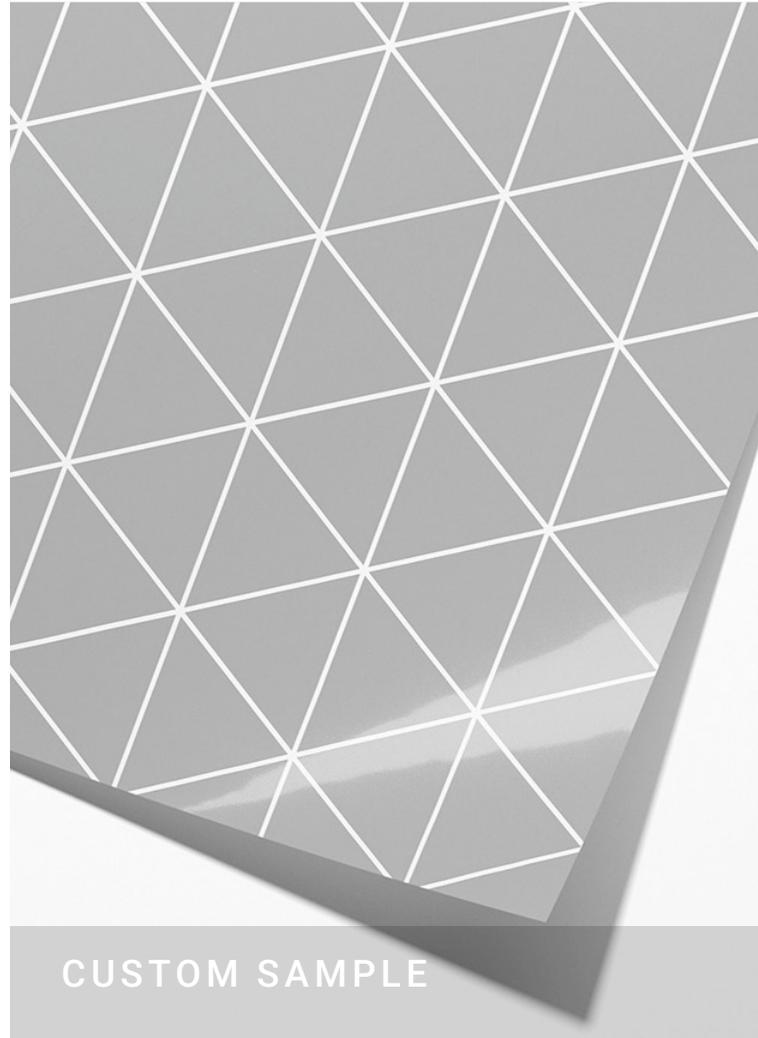

Customize your design with reverse cuts, scaling, color adjustments, and opacity modifications. We offer a wide range of material options to ensure the perfect fit for your project, providing endless possibilities to achieve the ideal look for your space.

The designs shown are displayed on window film, but all patterns and styles are also available for wall covering applications and can be produced in a variety of other finishes.

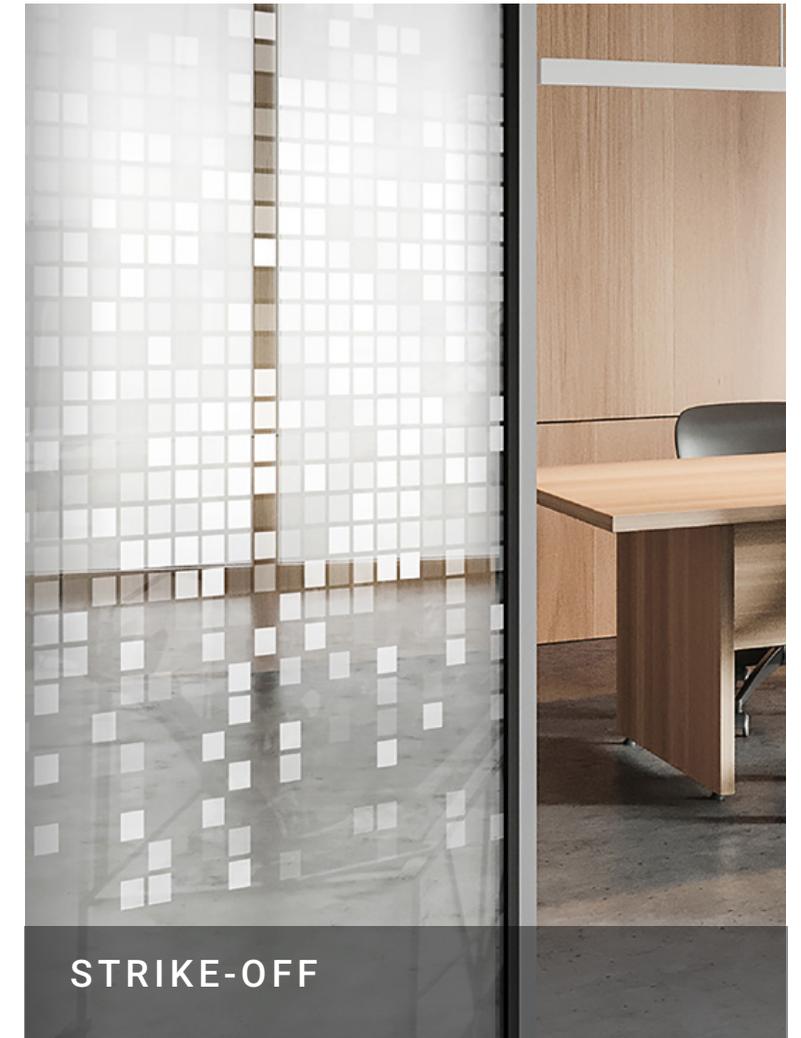

## SAMPLE BOX

Explore our sample boxes, which include a range of materials, printing options, and detailed opacity charts to help you evaluate and select the best fit for your project.

## CUSTOM SAMPLE

We offer custom samples allowing you to choose the design, material, and colors. This personalized approach ensures that your samples perfectly align with your vision and requirements before finalizing production.

## STRIKE-OFF

Upon request, a custom strike-off can be added to your project. This involves creating a full panel mock-up to display the complete design for your approval before the full project proceeds to production.
